WIRED EVENT

Work/Interview, Resume/Experience Day
Monday, September 12, 2016 — 12:00pm - 4:00pm
Ben H. Parker Student Center Grand Ballrooms (A, B, C)

WIRED is an event developed to assist students with their career development and co-sponsored by the Mines Multicultural Engineering Program and the Mines Career Center, and is an excellent opportunity to meet one-on-one with Mines students, as well as showcase your initiatives in promoting diversity within your organization. With your company representatives providing expertise to offer assistance with resume critiques, booth approach strategies, and practice interviews, WIRED is an enjoyable opportunity for recruiters to further enhance their organization’s branding, and is extremely helpful and appreciated by the students who sign up for these mini-sessions.

Schedule of Events:
11:00am: Employer Arrived
* Buffet Lunch Provided

11:45am: Employer Welcome and Brief
Overview

12:00pm-4:00pm: One-on-One Sessions with Students
Students will visit your table and ask for assistance, typically in the area of:
- Resume critiques
- Booth approach
- Practice interviews

You will have 20 minutes to spend with each student. This short timeframe is to ensure multiple students will be well-prepared to meet with recruiting professionals at Career Day. Student sessions are not degree specific, you may be talking with students from multiple disciplines.

TO REGISTER for WIRED, please visit: https://commerce.cashnet.com/SWE_MEP

Thank you for your participation in this valuable event!

May 18, 2016

Dear Company Representative,

I would like to introduce myself as the 2016-2017 Evening with Industry Director of the Colorado School of Mines (CSM) section of the Society of Women Engineers (SWE). My name is Kathryn Regas and I am a senior majoring in Mechanical Engineering. I am thrilled to present the 2016 SWE “Evening with Industry”!

I, along with the other SWE officers here at Mines, would like to take this opportunity to invite you to register for the 24th annual “Evening with Industry” (EWI) dinner on Monday, September 12, 2016, preceding the Fall Career Day on September 13th. There will be a networking reception at 5:00 PM in Friedhoff Hall in the Green Center. This will be followed by the dinner and program at 6:15 PM. Tickets to EWI are available for a donation of $150 for each company representative. The cost will increase to $200 after the deadline of Sunday, August 28th. This covers the cost of the representative’s dinner, as well as the SWE members seated with her/him. We will be continuing the tradition of giving your company one complimentary ticket to the “Evening with Industry” dinner for a donation of $1500, or four complimentary tickets for a donation of $2500 or more.

One of the primary goals of SWE is to educate our members and help them to become familiar with industries related to the fields of engineering they are studying. Corporate support is vital to our organization’s success and growth. Your support provides the opportunity for our SWE section to offer scholarships to active members demonstrating outstanding leadership and to organize outreach events such as our “Girls Lead the Way” conference for high school girls and our new “Girl Scout Energy Leaders” event where Girls Scouts complete projects focused on energy. The Mines SWE section also provides other fun, educational, and professional events for SWE members throughout the year.

We hope you will be able to join us for “Evening with Industry” this year. Please use the online form (https://orgsync.com/39047/forms/200643) to reserve your places and indicate your donation. Thank you in advance for your support of the Colorado School of Mines SWE Section. Without it we would not be the largest section in the nation, with over 700 members!

Sincerely,

Kathryn Regas
SWE Evening with Industry Director
